

Ashfield Draft Local Plan Consultation – Land Proposed for Housing or Employment purposes.

The draft Local Plan sets out land which is proposed to be used (allocated) for housing to meet future housing needs to 2038 or as employment land to meet future requirements for offices, general industrial or storage/logistics uses.

Allocated housing sites will be identified by a policy allocation number in the draft Local Plan but will also have another number (taken from the Strategic Housing and Employment Land Availability Assessment or SHELAA). Site not taken forward will only have a SHELAA number. Please see the various Tables below.

Sites allocated for employment land will be identified by a policy allocation number in the draft Local Plan. They may also have a SHELAA number. However, in a significant number of cases the sites have been brought forward from being allocated in the exiting Local Plan or have had planning permission. A number of sites were submitted to the SHELAA for housing or employment and may have been taken forward for housing rather than employment. Site allocation numbers and SHELAA numbers are set out in the Table below.

Summary of the Information Sources on Sites

Information on specific sites is set out in different Background Papers and evidence base studies. Depending on the nature and location, individual sites may have been assessed through the following:

- **Strategic Housing and Economic Land Availability Assessment (SHELAA)** – sets out an assessment of all sites (housing, employment, retail and other purposes) submitted to the Council. These have been assessed on the basis of a traffic light system. Any ‘red’ sites were discounted and only ‘amber’ and ‘green’ sites have been considered in relation to site allocations.

- **Ashfield Local Plan Sustainability Appraisal Consultation Draft Local Plan (Regulation 18) Sustainability Appraisal Report** - The SA is a process which assesses the environmental, social and economic impacts (both positive and negative effects) of the Local Plan policies and site assessments. This will include all SHELAA sites that were identified as amber or green. The SA helps to inform decisions across a wide range of topics, but it does not decide which sites are taken forward.
